Subject: Please see input for today's daily Wens 11/18/12: Devil's Swamp Scholarship
Date: 11/28/2012 01:17 PM

External Outreach: *Examples: Speaking engagements, public meetings, EPA conducted training for non EPA staff, SIGNIFICANT meetings with External parties;*

EPA Superfund Community Outreach has worked with Clean Harbors industry and Baton Rouge Community College (BRCC) Foundation for the past year to see if it were possible to do a scholarship program for the children of the community of Alsen, Louisiana. Clean Harbors will be presenting their first scholarship check to the BRCC Foundation December 2012. This is expected to be an ongoing scholarship fund to help Alsen students to continue their education at the BRCC. The scholarship will pay for books and tuition at the rate of \$2000 per semester (\$4000 per year). Once we hear from the BRCC Foundation as to the specifics on availability and contacts, EPA will make an announcement to the community of Alsen at one of the well attended TAG (Technical Assistance Grants) meetings. **Contacts:** Joy Campbell, x8036; Bill Little, x8131
